I found a Cessna 172 1:1 Panel drawing on the internet (you can download on the right side the original version) but I had to modify it. I modified the gauges size (made them smaller which helped me later with the bezels) and separated the whole panel in two parts: Main Panel and Lower Panel (for the lower panel i used black alucobond). I also deleted the Radio Stack and GPS panel and will cut ...

The tailfin was swept back 35 degrees to match the styling of the Cessna 172 and other models. The cabin doors were made 23% wider, new brakes were brought in and the 6.00x6 tires were made standard. The previously manual flaps were now electrically actuated through a panel-mounted flap switch. The old electric stall warning system was replaced with a pneumatic-type. The baggage compartment ...

The demo version of FSFlyingSchool contains all of the features listed on the features page, except for the following modifications: . The pilot must fly in an area centered on Green Bay (KGRB) The pilot cannot submit scores to the FSFlyingSchool online score tables. These features can instantly be made available by purchasing an FSFlyingSchool for Microsoft Flight Simulator 2020 registration key!

**Download FSFlyingSchool for Microsoft Flight Simulator Demo**  
To begin the descent in the Cessna 172, gradually lower the throttle to about 20% power and pitch the nose down between –3 and –5 degrees. Start to gradually lower the flaps (by using the "2" key if no replacement button was configured) to further slow the aircraft. The goal is to be around stalling speed (about 50 knots in the Cessna) right at touchdown for the smoothest landing. As ...
